Configuration for your OTP Software Token

To enter the User Portal you have to authenticate with an One Time Password. Scan the QR code below with Sophos Authenticator on your phone. The app will then generate a new passcode every few seconds. From then on, your password, directly followed by the passcode displayed, is the one-time password you have to enter to login. The *Details* link helps you to install Sophos Authenticator and shows token information in plain text.

Proceed with login
