

## 4.5 Stock List

Stock list digunakan untuk melihat posisi stock product pada lokasi tertentu.

The screenshot shows the 'Stock List' application interface. On the left is a teal sidebar menu with options: Dashboard, Sales, Production, Purchasing, Inventory, Goods Transfer Request, Goods Delivery, Goods Receipt, Item Journal, Inventory Adjustment, Stock List (highlighted with a red box and '1'), and Close Delivery. The main area has a search bar and several filter fields: Category Type, Category, Sub Category, Product Name, Product Code, Date (16-12-2021), Branch, Location Status, Transaction Type, and Status. The 'Location' field is highlighted with a red box and '2', showing 'Paris Baguette ASHTA'. At the bottom right, there are three buttons: Search, Export Data, and Clear Filter, with the 'Export Data' button highlighted by a red box and '3'.

1. Pilih Stock List
2. Pilih Location

This is a dialog box for selecting a location. It has a 'Search Location' input field at the top. Below it are checkboxes for 'Select All', 'Central Kitchen', 'Main Warehouse', 'KACS', and 'Paris Baguette ASHTA' (which is checked and highlighted with a red box). At the bottom are three buttons: 'Close', 'Reset', and 'Save changes'.

Pilih sesuai Location yang ingin dilakukan check stock

3. Pilih Search untuk memunculkan stock,  
-> Pilih Export Data, Untuk Download data ke Excel
4. Untuk proses ini bisa digunakan untuk pengecekan history stock berjalan
